

Products

World leader in leak testing hermetic devices.

The Radiflo® Leak Detection Equipment consists of two basic systems:

1

Pressurization Unit

Radiflo® Mark V Pressurization Unit

- ◆ [Vertical Tank](#) (Standard 2 ½ Gallon tank)
- ◆ Horizontal Tank
- ◆ 5 Gallon Tank

2

Counting Station

Automatic Counting Stations

Can be customized to handle wide variety of devices; Electronic devices, Relays, Integrated Circuits, Air bag Inflators, Seat belt Pretentioners, Air bag firing devices...

- ◆ Model 3200
- ◆ Model 3803
- ◆ Model 3705
- ◆ Model 3700
- ◆ Model 3700-II
- ◆ Model 3812
- ◆ Model 3725
